

**Slackline – Something to go MAD about!**  
**Now available in Northern Ireland**  
**Powered by [www.slackline4u.com](http://www.slackline4u.com)**

Life is about Balance...and the 'slack line' is a fantastic tool to find yours!

A Slackline is simply a webbing (flat rope) that you can walk along, at knee level, strung up between two fixed points, such as trees or other anchor points. The kit is very quick and easy to set up, providing mobile fun where-ever you go!

However be careful, Slacklining can be completely addictive! It is extremely fun and unique, providing a great opportunity to have fun with friends and family. The Slackline is a not just seasonal, it's a fantastic tool to create a unique BBQ setting in the Summer or even part of a Winter wonderland in your local Park. Everyone can walk a Slackline, children and adults alike! Just a little bit of general fitness and perseverance is required.

The benefits of balance are there for everyone to enjoy. Slacklining increases your physical coordination and concentration. Whether you play sport, surf, rock-climb, are an adrenaline junkie or mediate, try something new and be a part of the Slackline revolution!!

Ready to get your body 'on-line'?
